The second invitation features a 5 by 5 grid. The third invitation features a 13 plus 13 code. Could the first invitation feature an 8 by 8 grid or code? I think so! A chess board.</p> <p>This raises a couple of questions. Could the sketch be associated with the number '1'? Could the grail keeper note be associated with the number '21', next in sequence? And what about the '0'?</p> <p>For the sketch... it includes 2 groups of 3 flowers. Take the page number of the 6 flowers in the book. You can organize them so that three of them add up to 111 and the other three also!</p> <p>Dr Liebchen</p> <p>[This message has been edited by Dr Liebchen (edited 27-02-2006).]</p> <p style="text-align: right;">IP: Logged</p>
